

# Field Day

So much fun it ought to be illegal

This year, we will again be operating from Elmer Lange Park in Kockville Township. June 25<sup>th</sup> and 26<sup>th</sup>. The theme of this year's event is "Bigger". Bigger numbers, bigger food, bigger fun. We will have a GOTA station again this year and if you are a Tech we ~~want you,~~ need you, to operate this power house station. In terms of ability, flexibility, and availability the GOTA station is a power house and it is just waiting for you. Please come take advantage of the opportunity. Field Day will run a little differently this year as we will be doing a fox hunt during the contest. The fox hunt is aimed at getting younger visitors involved as well as providing operators/loggers the chance to take a break and do something else. This year's Field Day chair, Mike KE8AVJ, is putting together a schedule and overview which will be given out at the June meeting. As always everyone is welcome and we would love to see you. So come, visit, have some food, have some fun and help us make this another successful Field Day.

Fun = Success
